

flux

ARC SYSTEM, LINKABLE BAR/COUNTER

The flux ARC is the ultimate foldable design bar. Multiple ARC units can be linked together to form a long bar or one unit can be used as a counter or small bar. The ARC has plenty of storage space and it is super strong! Best of all, when folded flat you can just transport it in your car. A stack of 20 arc bars is only 70 cm high, how's that for efficient storage?!

- weight 16 kg
- max. load 50 kg
- volume reduction 95 %
- colors white, black
