

BOX

flux

Fair and square.

Flux Blox is our new product line of space-saving elements for events and exhibitions.

Next to our patented curved lines, we now also offer a simple, straight look.

We've made the design strong by combining our tried-and-tested foldable PP material with sturdy slabs of locally sourced oak wood*.

*with locally we mean:
near our production facility in east Poland.

Blox Presenter

The Presenter is the first
and core product of our new Blox line.

Its simple-but-sophisticated look
puts your product front and centre.
And when it's time to pack up,
it folds down in a snap
and fits into any car boot.

Top-notch

We love it when things fit perfectly into other things.
When the Blox Display slides sleekly into its notch,
it makes anything that stands underneath
look like a million bucks.

Use

In customary flux style, assembly is super-fast
without the use of any tools.

The units are scratch resistant and super-easy to clean,
so no more repainting after every show.

We've even added a big clip for ultimate flatness.

Customization

We offer many possibilities to make a Blox unit uniquely yours.

From stickers, screenprinting to a striking all-over-print or a subtle engraving, your message will be the centre of attention.

TIP One cool option we offer is to engrave your logo into the inside of each Presenter. When combined with an internal light, this creates a very sexy glow-effect.
